Soldering · Crimping · Assembling · Complete solutions

## PATENTED CRIMPING TOOL

- Low maintenance pestles/column guides
- Completely oil and grease free
- Small mounting effort
- Pneumatic feed not dependent on crimp machines
- Suitable for both semi and fully automatic machines, as well as smaller benchtop crimping machines
- Feed adjustments, crimper check and change are possible after installation. Trumpet/belmouth can be adjusted in case of different contact charges.
- No separate curves for semiautomatic or fully automatic tools
- For all currently standard wearing parts of 19 mm width
- Repeatable fine-tuning and adjustment of crimp height via integrated scale
- Festo® Pneumatic elements
- 1 year guarantee on the appliance (wearing excluded)
- High-quality elements
